

Intro to Marp

header

here's some **body**

please paginate from this page onwards

- bullet

```
function demo() {  
  console.log("code snippet");  
}
```

but what if we have even **more** text?

so much to say, so little room

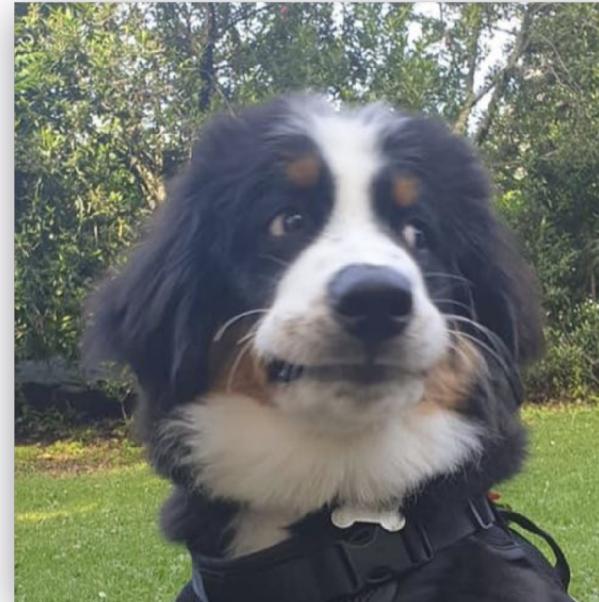

wow

it's still going

ah no

small header

smaller header

resized image with drop shadow

bg left

some text lorem ipsum

bg left:30%

maybe i want more space for text.
sorry doggo.

bg vertical

BOOP THE SNOOTS

```
! [bg](lightgrey)
```

How to...

1. left-align select slides?
2. insert >1 image and align them side by side?
3. can we publish the slides on github pages?
